## INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

"Affected County": Any county or portion thereof, as defined in Section 13A-102 of the Vehicle Emissions Inspection Law.

"Agency": Illinois Environmental Protection Agency

"Assigned Test Month": Month allocated by the Agency which is the earliest month in which the vehicle may be inspected. The first day of the "Assigned Test Month" shall be 4 months prior to the "Expiration Date".

"Calibration": The act of defining or checking the full response curve of the exhaust gas analyzer.

"Calibration Gas": A gas of known concentration used to establish the response curve of the exhaust gas analyzer.

"Catalytic Converter": Device designed to control exhaust emissions using chemical catalysts to oxidize unburned hydrocarbons and carbon monoxide into water vapor and carbon dioxide. Three-way catalytic converters also control oxides of nitrogen (NO<sub>x</sub>) emissions by catalytically reducing NO<sub>x</sub> to nitrogen and oxygen.

"Drift": The amount of change in analyzer reading over a period of time. Zero drift refers to the change of zero reading. Span drift refers to a change in the reading at a specified span gas calibration point.

## ENVIRONMENTAL PROTECTION AGENCY

## NOTICE OF PROPOSED AMENDMENTS

"Fuel Inlet Restrictor": A component or design feature of the vehicle gasoline tank filler inlet which prevents the insertion of a gasoline pump nozzle spout having an outside diameter of not less than 0.930 inch but allows the insertion of a nozzle spout having an outside diameter of no more than 0.840 inch.

"HC Hangup": Hydrocarbons which cling to the surface of the analyzer gas sampling stream causing errors in hydrocarbon readings.

"Heavy Duty Vehicle": A motor vehicle rated by the manufacturer at more than 6000 pounds gross vehicle weight.

Such fees shall be assessed upon all persons entering the grounds or enclosure of the inter-track wagering location licensee facility (facility), except the following exemptions: directors, officers, agents or employees of the inter-track wagering location licensee; all persons entering the grounds or enclosure of the facility for the transaction of business in connection with the operations of the inter-track wagering location licensee, including employees of the inter-track wagering location licensee's concessionaire(s) and Board employees engaged in their regulatory duties; and, all persons licensed pursuant to Section 435.110.

- 2) The following requirements, restrictions and limitations shall be applicable to admission fee exemptions:

A) Service employees shall include only persons actually engaged in providing service at the grounds or enclosure for a contractor, service company, public utility or others employed at the facility. Request for exemption must be made on purveyor's official stationery under duly authorized signature setting forth name of each such employee, duties and justification for each exemption requested.

B) Business exemptions may only be issued to persons having official business at the grounds or enclosure and not classified as service employees. Requests for exemptions must be made on company or agency official stationery under the signature of ranking official, setting forth the name of each person for whom exemption is requested, along with duties and justifications.

## c) Distribution of Collected Fees

The Board shall distribute all fees collected by it to the appropriate municipality or county on a monthly basis.

## d) Record Keeping Requirements

- 1) All inter-track wagering location licensees shall adopt a system, to be approved by the Board, by which each person admitted to the grounds or enclosure, whether such admittance is subject to an admission fee, is counted and assigned a serial or control number such that each admission is individually recorded. This system shall show daily the total number of people admitted to the facility, the total number of people admitted who are subject to admission fees, and the total number of people admitted who are not subject to the admission fee. Such system shall establish the basis for the admission fee exemption for each exempted admission. The system shall be granted Board approval if it meets the requirements of this sub-paragraph.
- 2) The licensee shall prepare a daily itemized, certified admission statement setting forth the information required by §435.170(d)(1), and this statement shall accompany the remittance for that day.

- 4) All inter-track wagering location licensees shall keep accurate books and records showing: the total number of people admitted into the grounds or enclosure of the facility; the total number of admissions upon which the admission fee is imposed; and the total number of exempt admissions, for each day the facility is open to the public. These books and records shall establish the basis for the exemption for each admission upon which an admission fee is not imposed. Each admission exemption for which the inter-track wagering location licensee cannot establish a proper basis shall be disallowed, and shall be considered a separate violation for purposes of this Part.
- e) Access to Records
- Representatives of the Board, including those employees of the municipal or county government which imposed the admission fee who are duly authorized by the Board, shall have access to all payrolls and other supporting evidence to verify the proper payment of admission fees and eligibility of all exempted persons.

The Director shall notify the Illinois Local Governmental Law Enforcement Officers Training Board of all such investigations.
- b) At the conclusion of the investigation, the Director shall review the findings with the Illinois Local Governmental Law Enforcement Officers Training Board.

- c) If the Director and the Illinois Local Governmental Law Enforcement Officers Training Board conclude that the officer has intentionally violated the law or has intentionally violated the civil rights of any party, the officer's certification shall be revoked and his/her credentials impounded and destroyed. An officer whose credentials have been revoked shall not be eligible for certification or recertification.
- d) If the Director and the Illinois Local Governmental Law Enforcement Officers Training Board conclude that the officer has violated any requirement of this Part, the officer's certification shall be suspended and impounded until the officer has successfully completed a recertification training course.
- e) The Director shall notify in writing the officer and the chief executive officer of the agency for which the officer is employed of any decision to revoke or suspend the officer's certification.

#### Section 1295.50 Recording and Minimization Standards

Electronic Criminal Surveillance Officers shall comply with the minimization standards required by the Act and this Part:

- a) Minimization requires that the intercepting officer must use his/her judgement and background knowledge of the criminal investigation and its participants, together with facts and circumstances that develop in the overheard conversations, to refrain from intercepting nonpertinent, innocent, or privileged conversations as they take place.
- b) Judgements concerning minimization decisions shall be based on the knowledge possessed by the interception officer at the time of the decision. Examples of factors to be considered are as follows:
  - 1) The nature and scope of the criminal activity being investigated.
  - 2) The use of ambiguous, guarded, coded, or foreign language.
  - 3) The location of the telephone or facility.
  - 4) The expectation of the intercepted conversation containing statements relating to criminal conduct.
  - 5) The likelihood of the interception containing privileged communications.

## DEPARTMENT OF STATE POLICE

## NOTICE OF PROPOSED RULES

- c) Officers authorized to supervise the interception of private oral communications shall, if possible, ascertain the identities and phone numbers of targeted conspirators, spouses, attorneys, clergymen, and physicians. Such available information shall be disseminated to all officers charged with responsibility for intercepting the referenced communications in order to assist in identifying potentially privileged communications.
- d) Minimization shall be a simultaneous process involving the cessation of audio interception, monitoring and recording, and the registering of such information on the output tape of the dialed number recorder (if such device is utilized). All such transactions shall be documented on the Intercept Log.
- e) Spot monitoring of apparently privileged and nonpertinent conversations shall be permitted in order to ensure that such conversations do not lose their privileged and innocent character. This process shall be used to safeguard against instances where conspirators assume the identities of privileged parties to initiate nonpertinent conversations to mask criminal communications. All such spot monitoring shall be reflected on the Intercept Log.

## Section 1295.60 Documentation Requirements

The following documents shall be completed and maintained with respect to any interception of private oral communication authorized by the Act:

- a) Monitor's Intercept Log shall be maintained. It shall include the monitor's name(s); the date and shift; the intercept case number; the cassette number; the name of the subject; the court order number; and for each call, identification of the call as outgoing or incoming and the caller and called parties; the start and finish time of the call; the tape footage; whether the call was pertinent; whether any minimization was required; if any spot checks were made; a summary of the call; and the initials of the party making the entry.
- b) Monitor Post Log shall be maintained. It shall include the case number; the shift and date; the case investigator; and for each individual present at the monitor post, the person's name and agency; the time in and time out of the monitor post; the person's reason for being at the monitoring post; and an acknowledgement that the person is aware of all instructions from judges, prosecutors, and supervising officers concerning the execution of the court order authorizing the intercept.

## DEPARTMENT OF STATE POLICE

## NOTICE OF PROPOSED RULES

- c) Investigative Report by each officer participating in the electronic surveillance shall be completed. It shall include the times and dates of the officer's surveillance; a list of the calls monitored by the officer and the pertinent information derived; and the steps taken to secure and safeguard the evidentiary tapes generated.

## Section 1295.70 Evidence Handling Procedures

The following procedures shall apply to the handling of evidence tapes generated pursuant to these provisions:

- a) A new cassette tape shall be placed in the recorder at the beginning of each shift, regardless of whether or not conversation has been recorded by officers assigned to the previous shift.
- b) The recording tabs will immediately be broken off upon removing the cassette from the recorder. Such action must precede any other, including the rewinding of cassettes.
- c) Each cassette shall be marked and placed within its own individual evidence envelope. Notations shall be entered on the exterior of referenced evidence envelope identifying its contents.
- d) At the conclusion of the shift, all such evidence envelopes shall be placed within a larger evidence envelope in company with any related original register tape from the dialed number recorder and the original Intercept Logs for the shift. Identifying information must then be entered on the envelope which contains the cassettes, logs, and register tapes. Such information shall include, but is not limited to, the following:
  - 1) Information identifying the specific investigation.
  - 2) A listing of the individual exhibits which the envelope contains.
  - 3) The inclusive times and dates during which the referenced evidence exhibits were obtained.
  - 4) The identity of the interception officer(s).
- e) The envelope, containing the referenced documents and cassettes, shall then be deposited in an evidence locker of other secure facility.
- f) Officers shall retain copies of the referenced documents and cassettes for investigative and disclosure purposes as authorized by law.

Section 250.50 Examinations

- Kinds of Examinations. Examinations shall be of two kinds: original entry and promotional. Both kinds shall be open and continuous competitive examinations.
- Eligibility to Compete in Examinations.

STATE UNIVERSITIES CIVIL SERVICE SYSTEM

NOTICE OF ADOPTED AMENDMENTS

- Any citizen or resident of the State of Illinois, who applies for examination in a specific class at a constituent place of employment served by the System, who is not rejected or disqualified under Section 250.50(c), and who meets the minimum qualifications as prescribed in the class specification, shall be admitted to such examination. For classes requiring valid licenses or certificates, an applicant must show possession of such license or certificate at, or prior to, time of taking the examination.
- A promotional examination shall be open to a status employee in a place of employment, who is not rejected or disqualified under Section 250.50(c), who meets the minimum qualifications specified in the class specification for a higher class in the appropriate promotional line and who, in addition, is working by virtue of a status appointment, in a position of a lower class in the same promotional line, is on leave of absence from such a position, or is on layoff from such a position.
- An applicant who fails to meet the minimum qualifications established for the class, but who can offer qualifications which in the opinion of the Director are considered to be compensatory, shall be admitted to the examination for the class. The names of all such applicants who pass the examination shall be placed on the appropriate register in order of score.
- In the absence of a name of a candidate on any existing register for a class, an applicant who does not possess the minimum qualifications for the class and cannot present compensatory qualifications may be admitted with prior approval of the Director to the examination for the class for the purpose of attempting to fill a specific vacancy. The name of an applicant so admitted, and who passes the examination, shall remain on the register only until the specific vacant position has been filled.
- An applicant with a physical handicap who fails a section or sections of an original entry examination because of circumstances directly related to the handicap, who is subsequently employed in the absence of a register, may, after six months of satisfactory service, upon recommendation of an employer and written approval of the Director, be declared exempt from qualifying on such failed section or sections of the examination, in which case he shall become a status employee in the position in which he has been employed or in another position in the same class.
- For classes requiring technical qualifications for which there is an inadequate supply of qualified applicants who are citizens of, or residents in, the State of Illinois, out-of-state residents may be admitted to the examination. When the citizenship or residency requirement is waived, in-state candidates shall be listed on the register ahead of out-of-state candidates.

## STATE UNIVERSITIES CIVIL SERVICE SYSTEM

## NOTICE OF ADOPTED AMENDMENTS

7) Any applicant may rewrite an examination for a class three times within any twelve month period, with at least one month time lapse between every rewrite. The candidate's place on the register for the class shall be determined by the highest score achieved on any examination for the class.

A) For the purpose of this Section, an original entry and a promotional examination shall be considered to be one and the same examination.

B) The limitations of this Section do not apply to an applicant who fails the typewriting and transcribing and/or stenographic sections of an examination.

c) Rejection or Disqualification of Applicants. The employer may reject any applicant, or, after examination, the Director may refuse to certify any candidate who, in addition to requirements specified in Section 36f of the Statute and Section 250.50(b), fails to pass a physical examination given to determine his physical qualifications for employment, uses intoxicating beverages to excess, uses narcotics, has been dismissed from either private or public service for a cause detrimental to his employment by an employer under the System, has maintained an unsatisfactory employment record, has practiced deception or fraud in his application, examination, or material pertaining to these, or has committed an offense which in the judgment of the Director disqualifies him for employment.

d) Character of Examinations.

1) Examinations shall consist of one or more of the following: written test; performance test; oral test; physical test; aptitude test; practical test; other appropriate tests; a rating of experience and/or training.

2) All examination content shall be provided by the staff of the System.

3) All examination supplies and materials and all examinations are the property of the System.

4) An original entry or promotional examination may be revised, with the approval of the Director, without affecting existing original entry and/or promotional registers for the class, providing such revision does not change the character and/or weighting of sections of the examination.

5) The character and/or weighting of sections of an original entry or promotional examination may be changed, with the approval of the Director, providing that there is sufficient evidence that the

current examination for the class is not a satisfactory examining instrument; and providing, further, that such character and/or weighting of the examination has been in use for a period of at least two years; and providing, further, that 90 days advance notice of such change shall be given to all appropriate employers who shall then communicate such notice in writing to each candidate then on an original entry or promotional register by score and shall further communicate such notice in writing to any applicant who applies for an original entry or promotional examination during such 90-day period. During the 90-day period, qualified applicants (including candidates whose names are already on the register by score), at their request, will be scheduled for the examination. At the end of the 90-day period the original entry and/or promotional registers of candidates by score will be voided, and new original entry and/or promotional registers by score shall be established on the basis of the new examination.

e) Administration of Examinations. As approved by the Director, examinations shall be scheduled and administered by the employer. Such examinations shall be conducted on an open and continuous basis, except for examinations to original entry registers at each place of employment, as requested by the employer and approved by the Director, that have a sufficient number of candidates on the register which preclude further recruitment and testing. In making a determination to reopen (or close) an examination, the Director will consider requests by the employer or other individuals based on the number of positions in the class, projected new positions, and annual turnover rate. Also, for examinations that have been closed for six months or more, the Director will review the need for continuing the approval of a closed examination. The employer shall be responsible for the security of all examination materials supplied to ~~him~~ the employer by the System so long as they are in ~~his~~ the employer's custody.

f) Rating of Examinations.

1) The Director and his staff shall use appropriate scientific techniques and procedures in rating tests and in determining resulting rank to the end that all competitors receive uniform and fair treatment.

2) Failure in any portion of a total examination, the passing of which is deemed necessary to qualify for eligibility in the class for which the applicant is being examined, shall eliminate the applicant from passage of the complete examination, regardless of his score in other portions thereof. For each eliminating test and the final average in an examination, the Director shall announce the minimum acceptable rating.

3) The passing score for eligibility for certification shall be determined by the Director. This score shall be the same for all

## STATE UNIVERSITIES CIVIL SERVICE SYSTEM

## NOTICE OF ADOPTED AMENDMENTS

examinations given for a class, but it may be changed if in his judgment such change is for the best interest of the System; and such change shall be applicable uniformly to all examinations for the class. The passing score shall be made known to all those taking the examination.

4) An applicant who fails to gain eligibility for employment in a higher class may, at the discretion of the Director, elect to accept eligibility for a lower appropriate class, if his scores on all appropriate parts of the examination are sufficient to qualify him for the lower class.

5) All examination scores shall be on a scale of 1 to 100, with decimal points in examination scores being rounded off to the nearest whole number, i.e., with below .5 having the decimal points dropped and with .5 or above being rounded to the next whole number.

## g) Notification and Review of Scores.

1) An applicant shall be sent a written notice of the date and results of his examination. Such notice must indicate whether the score achieved is passing or failing and if it includes credit for Veterans Preference.

2) All requests of applicants for review of scores shall be made to the Director.

h) Filing of Examination Records. All administered examinations given by the employer shall be retained by the employer for at least a period of two months after date of scoring the examination.

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking activity occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash. (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-8571/86; A-724)) The codes for both columns are listed below. For a complete listing of the Titles of the *Illinois Administrative Code*, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.
